11. What did you appreciate most about this class?

The organization of discussion experiments + the insight it would cast economic theories we've so accustomed to.

12. Is there anything you would like to see the TA do to improve his/her teaching?

Perhaps foster more in-class discussions rather than just lecture.

Please make any additional comments regarding the TA and/or discussion sections.

Sean was really approachable - ever remembered a topic we discussed days prior the next time we met. His attention to resolving confusion was noticed.
